POLES ISSUE A MANIFESTO.

Declares Autonomy Is Necessary to Preserve Peace in Poland.

St. Petersburg, Nov. 21.—The delegation of twenty-four prominent Poles, comprising representatives of all the principal parties in Poland, except the socialists, and also including members of the Catholic, Evangelical and Hebrew churches, which came to St. Petersburg to plead the cause of Poland, to make known the attitude of that country toward the government, and to outline the demands which ought to be immediately granted in order to restore tranquility, issued a manifesto during the day to the Russian people reviewing the sad history of Poland in the past century, declaring that the Poles have no thought of separation or of independence, and asking the support of all parties in Russia.

The manifesto firmly declares that the normal and peaceful existence of Poland will only be made possible by the granting of autonomy, permission to use the Polish language in the schools and in the courts, and by the local administration and the entrusting of the Poles with the government of the kingdom. It is insisted that the country is not in a state of revolution.

Normal Conditions Prevail.

St. Petersburg, Nov. 21.—Normal conditions of life are being resumed here. The workmen are returning to work, the electric light plants are in operation and telephonic communication has been restored. The morning newspapers have reappeared.

NORWEGIAN STEAMER TURBIN
SUNK DURING A GALE OFF
NOVA SCOTIA.

SHIP STRUCK ON THE ROCKS

EIGHTEEN PERSONS SUPPOSED
TO HAVE LOST THEIR LIVES
IN THE DISASTER.

Clark's Harbor, N. S., Nov. 21.—The Norwegian steamer Turbin, with her captain and crew of about sixteen men, is thought to have foundered in a terrific gale which swept over Nova Scotia last Friday. The coasting steamer Edna R., which arrived here during the day from Mud Island, brought news that on Friday about 5 p. m. a large steamer supposed to be the Turbin struck Black Rock ledge off the south coast of the province, backed off in a few minutes and then disappeared in the raging sea. Persons on the island who saw the steamer strike on the ledge were a considerable distance away, and owing to the tremendous sea running it was impossible to launch a boat.

No person could be discerned aboard the craft and so quickly did the steamer go down that no opportunity was given the crew to fight for their lives. No boat could have lived an instant in the sea that was running. While the craft hung on the rocks, the seas made a clean breach over her. Suddenly a giant comber lifted her from her nesting place and the next instant she took the fatal plunge, carrying, it is believed, all on board down with her.

The people of the island have no means of communicating with the mainland until a steamer calls there, or the weather is sufficiently moderate to permit them to launch their own boats, and in consequence of their isolated position the first news of the wreck has only just reached here.

The Turbin was bound from Sydney with a cargo of coal for Yarmouth. She was in command of Captain Knudson and had a crew of sixteen or eighteen, all Norwegians. The steamer was last reported as passing Port Mulgrave, N. S., on Tuesday last, bound south.

THE ZEMSTVO CONGRESS.

Appears to Be Divided as to What Course to Pursue.

Moscow, Nov. 21.—The zemstvo convention during the day devoted two long sessions to a discussion of the attitude it should adopt toward the new government, without coming to a decision. The debate indicated quite clearly, however, the existence of two apparently irreconcilable parties as well as the lines on which the division ultimately will be made, though the relative strength of the parties was not shown.

A score of orators participated in the debate and they were about evenly divided between the advocates of the immediate convocation of a constituent assembly and those who are urging co-operation with the new government so as to save the country from anarchy if not a complete revolution. No set resolution was proposed, but the discussion took the widest range. Prominent among the speakers for the conservative party were M. Krossoffsky of Samara, Prince Eugene Troubetzkoy, M. Nemirowski, mayor of Saratoff, and Count Heyden, president of the congress. These men, with Dimitri Shipoff, M. Guichkoff, M. Struve, M. Stakovich and M. Rodicheff, will form the nucleus around which will rally the members of the "party of law and order," the peace party and others who are in favor of coming to the support of Count Witte, if sufficient guarantees be given for the fulfillment of the liberties promised. The speakers who opposed the giving of any support to Count Witte's government were less well known, but they made up in bitterness what they lacked in prestige.

M. Roberti of Tver, who for years has been prominent in the struggle against the government, led a compromise party, declaring it would be needless haste to throw themselves into the arms of Count Witte, which, he added, were "none too clean," but he would be willing to co-operate with the government if Count Witte would consent to a severe investigation of the acts of authorities accused of instigating outrages by the "Black Hundred," by a commission composed equally of representatives of the administration and the zemstvos.

M. Popoff, a delegate from far off Irkutsk, Eastern Siberia, wound up the debate with a fiery speech in which he declared it was their duty to lay down ultimatums and not to speak of making terms with the government, but to demand amnesty and a constituent assembly.

AFTER A WORDY BATTLE.

Federation of Labor Grants Charter to Steamfitters' Union.

Pittsburg, Nov. 21.—After a wordy battle lasting five hours on the floor of the convention of the American Federation of Labor, the International Association of Steamfitters, composed of members of that trade exclusively, was practically voted a charter by the federation independent of the plumbers' union, which for the past three years has fought bitterly every effort to this end. The vote was nearly two to one in favor of granting the charter, and while it merely approved the recommendation of the committee on resolutions that the executive council issue a charter to this organization, it is believed the council will not go against the opinion of the convention as a whole.

The difficulties arose some years ago between the steamfitters' trade and the plumbers' trade. The former were in the majority, but they had to work under the plumbers' union, and were used as a main backbone to the plumbers' body. The steamfitters finally withdrew from the plumbers' union and formed a national body and appealed to the federation for a charter. The annual conventions at San Francisco and Chicago both refused to grant the charter.

Another jurisdiction fight was settled during the day when the car painters were ordered to join the painters, paperhangers and decorators.

WOMEN PLEAD GUILTY.

Admit Truth of Perjury Charge Made Against Them.

Milwaukee, Nov. 21.—Anna Katz and Martha Peterson appeared in the United States district court during the afternoon and pleaded guilty to the charge of perjury preferred against them two years ago. Anna Katz is the sister of Marcus Katz of Chicago, who is the principal in a \$70,000 bankruptcy.

Martha Peterson was an employee or secretary of Anna Katz. Anna Katz and Miss Peterson were alleged to have had the custody of certain property belonging to the bankrupt and the testimony in which it is said they committed perjury related to the concealment of certain of the assets of the bankrupt. Judge Quarles will pass sentence this week.

DEATH LIST IS LARGE

ONE HUNDRED AND TWENTY.
EIGHT LIVES LOST IN WRECK
OF THE HILDA.

London, Nov. 21.—One hundred and twenty-eight persons lost their lives in the wreck of the London and South-western Railway company's steamer Hilda off the northern coast of France Saturday night, according to an official estimate just given out by the officers of the company. This death roll includes twenty-one saloon passengers, eighty French onion sellers, and twenty-seven of the crew.

SIXTY BODIES RECOVERED.

Full Extent of Disaster to Steamer Hilda Realized in France.

St. Malo, France, Nov. 21.—Realization of the full extent of the disaster to the cross-channel steamer Hilda came to the people of St. Malo during the day as reports of the finding of bodies were received from different points along the near-by coast. In all, over sixty bodies have been washed up, including that of Captain Gregory, the commander of the wrecked ship, which now lies in the hospital here, and as fast as other bodies arrive they will be placed in a room prepared for their reception.

Thirteen bodies of saloon passengers have been identified. These are Mrs. Rook, her two children and their governess; Dr. Stanley, his wife and two daughters and a maid; Major and Mrs. Price, Mr. Wellesley and Mr. Grindale. The survivors are rapidly recovering.

ATTEMPT TO WRECK A TRAIN.

Results in Derailment of an Engine and Injury of Two Men.

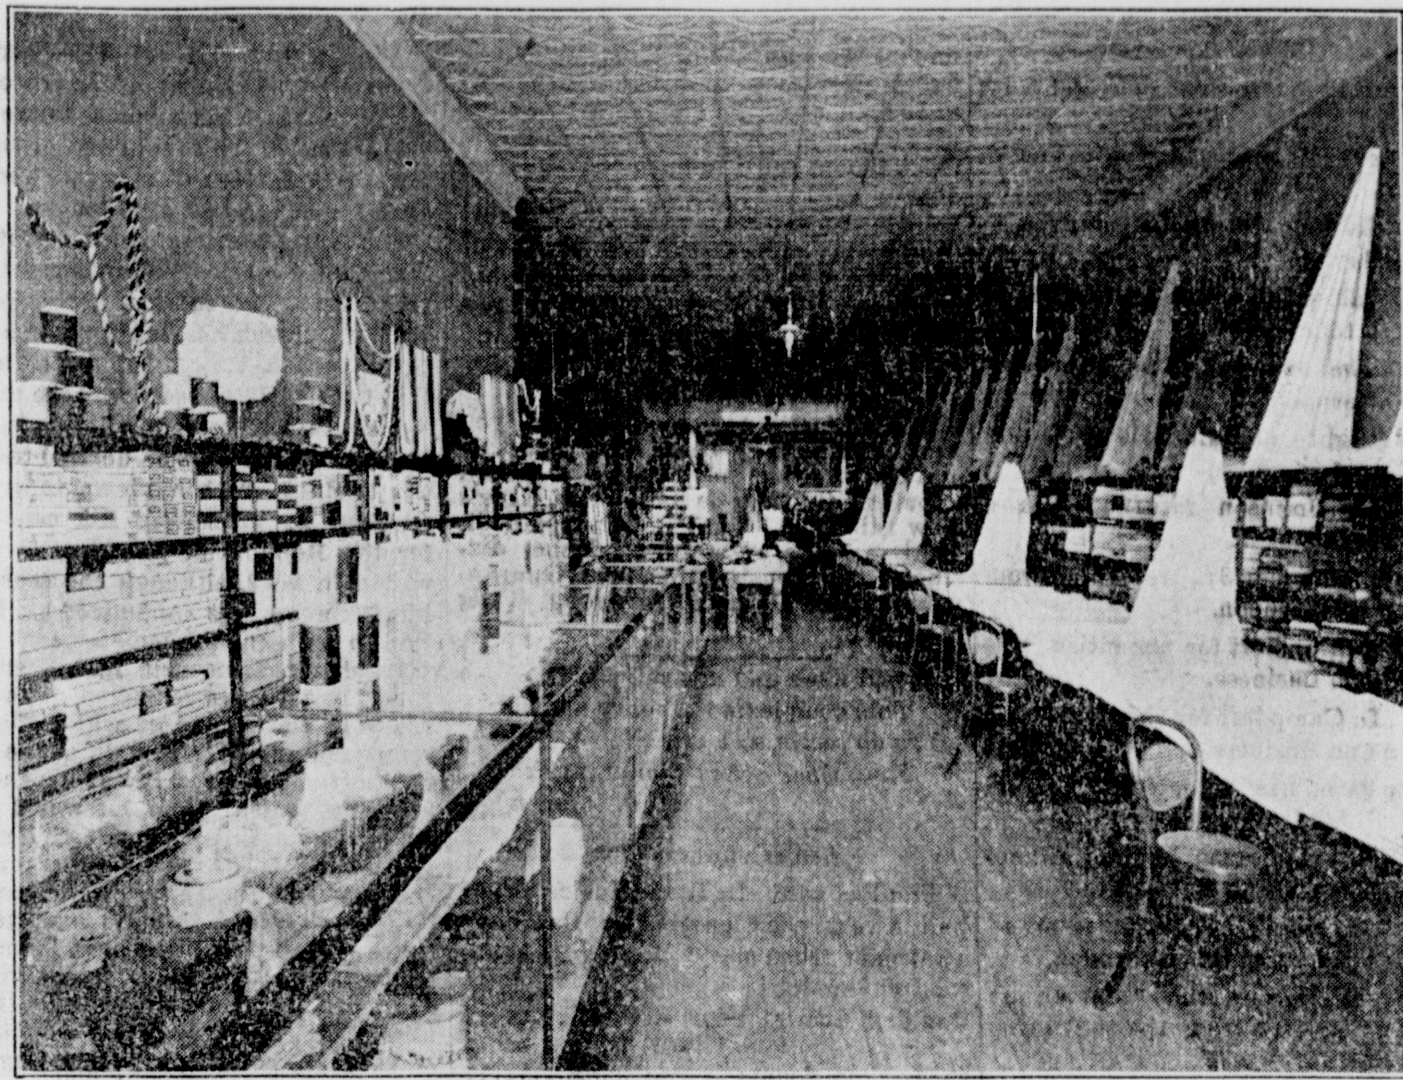

Lima, O., Nov. 21.—An attempt was made by some unknown person during the day to wreck eastbound passenger train No. 4 of the Lake Erie and Western railway at St. Mary's, twenty miles west of here. A switch was opened near the Toledo and Ohio Central crossing just before the passenger train was due and was hit by an engine which was running light ahead of the passenger train. The engine turned over and Engineer Charles Greenland and Fireman Bruce Yindling were buried under the coal from the tender. Engineer Greenland was terribly scalded and will probably die. Yindling was only slightly hurt.

Two Children Cremated.

Baldwin, Mich., Nov. 21.—Two children, aged respectively five and three years, belonging to Mrs. Dell Wright in Lake township, were burned to death at night while locked in their home alone.

DECISION NOT FINAL

THAT OF BOARD OF CONSULTING
ENGINEERS OF CANAL MAY
NOT BE ACCEPTED.

IN FAVOR OF A LOCK CANAL

PRESIDENT ROOSEVELT SAID TO
PREFER IT TO THE PROPOSED
SEA LEVEL DITCH.

Washington, Nov. 21.—Although the board of consulting engineers has decided in favor of a sea level canal, it is yet an open question whether the Panama canal shall be a sea level or a lock waterway. The decision of the board of consulting engineers is not final. The decision of the board was reached by a vote of 8 to 5 in favor of the sea level project, General Davis and Messrs. Burr and Parsons joining with the five foreign engineers against a lock canal.

The report of the board of engineers probably will not be submitted to President Roosevelt for five or six weeks. As to the character of the great project, the report will not be unanimous. In fact, two reports, one by the majority and one by the minority, will be submitted. These reports the president will lay before the canal commission and Chief Engineer Stevens for consideration. Mr. Stevens will come to the United States from the Isthmus to take up the subject with the commission and with the president.

It can be stated with absolute assurance of accuracy that, while due weight will be given to the decision of the majority of the board of engineers, the authorities who have the final determination to reach will approach the subject with care and deliberation and perfectly open minds.

Must Prove Their Contention Clearly.

The president has discussed the question with some of his callers and he has indicated that the advocates of the sea level project will have to prove their contention clearly. The cost, the time and the risk of the two projects will be gone over carefully. It is conceded by the advocates of a sea level canal that to construct such a waterway will cost much more money and time than to build a lock canal. It is known that, in the mind of the president, these are vital elements. It is his desire, expressed to some of those who have discussed the subject with him, that the canal should be built as expeditiously as possible and at no greater expense than may be necessary to provide a practicable waterway. He has indicated to some of those to whom he has talked that he personally favors a lock canal, but he is determined fully that the subject shall be considered thoroughly from all points of view before a final decision is reached.

Chief Engineer Stevens of the Panama canal commission will leave Colon

for Washington next Thursday. He is coming to give the commission information upon different phases of the work on the Isthmus, but more particularly his views as to the type of canal. He is said to favor a lock canal, believing that a sea level canal will take too much time for construction.

MANY PERSONS IN PERIL.

Fire Damages a Large Building in Chicago.

Chicago, Nov. 21.—Many lives were endangered and property to the value of \$50,000 was destroyed by a fire which almost consumed the Commercial building at 912-918 Commercial avenue. The first two stories of the structure were used as stores and the three floors above were divided into apartments. On the first floor was also situated the postoffice of the suburb of South Chicago and this too was badly damaged. Mrs. Mary Broadhurst was severely hurt by falling through a skylight. She was

picked up unconscious and carried to the street by a fireman. Eight other people were also carried from the building by firemen, none of them, however, being badly hurt. About 200 people were in the building when the fire broke out, but with the exception of those aided by the firemen and several others who were compelled to descend ladders all of them reached the street without difficulty.

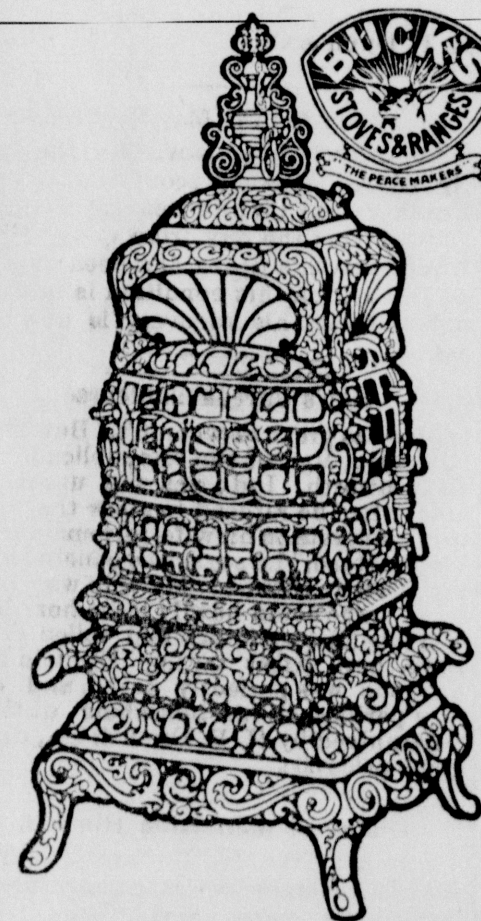

Confederate Veteran Killed.

Natchez, Miss., Nov. 21.—Major Simon Mayer, who served as adjutant general with rank of major general on the staff of General Chalmers in the Confederate army, was killed accidentally as he arose from his bed, his revolver slipping from under his pillow and discharging one bullet, which lodged behind his right ear, causing instant death.

IN REGARD TO FOOTBALL.

Pennsylvania Professor Confers With President Roosevelt.

Philadelphia, Nov. 21.—Dr. J. William White, professor of surgery at the University of Pennsylvania and a member of the university committee on athletics, has returned from Washington, where he had been summoned by President Roosevelt to discuss matters relating to football. In an interview Dr. White said:

"The president did me the honor of asking me to lunch with him at the White House for the purpose of discussing with him the situation as to American football.

"As to what took place during my visit the president has permitted me to say that we are in complete accord as to the need of a permanent abolition of brutality and foul play; of the increase of the powers of the officials, and of the severity of the penalties as being necessary to bring about such abolition, as to the desirability of careful consideration of any changes in the rules that may be required to minimize danger while preserving the essential, manly and vigorous characteristics of the game, and as to the urgent need of earnest effort to secure a simple and uniform eligibility code for all American colleges and universities."

White Beaver May Recover.

La Crosse, Wis., Nov. 17.—The family of the famous scout, Colonel D. Frank Powell (White Beaver) were notified during the day from Cody, Wyo., where Powell's death has been expected hourly, that his condition is improving and that his recovery is now expected.

Man's Unreasonableness

is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female trouble, "instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by H. P. Dunn & Co., druggists, price 50c.

Unknown Man Kills Himself.

Atlantic City, N. J., Nov. 21.—The body of an unknown man, aged about twenty-two years, was found lying close to the inlet bulkhead at the upper end of the city. A bullet wound in the forehead had caused death and it is believed to be a case of suicide. A revolver was found alongside the body.

"I Thank The Lord,"

cried Hannah Plant, of Little Rock Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at H. P. SHAW IN NO HURRY

SECRETARY OF THE TREASURY

WILL NOT RESIGN FROM HIS POST IN FEBRUARY.

CONFERS WITH ROOSEVELT

AGREES TO REMAIN IN THE CABINET UNTIL AFTER CONGRESS ADJOURNS.

Washington, Nov. 21.—Secretary Shaw will remain as secretary of the treasury in President Roosevelt's cabinet until the conclusion of the approaching session of congress and perhaps for several months longer.

It has been understood in a tentative way that Secretary Shaw expected to retire from the cabinet about Feb. 1, 1906, if, indeed, he should not conclude to relinquish his official duties before that time. He himself was the authority for this statement. It was understood generally that he desired to leave the cabinet with a view to greater freedom in promoting his candidacy for the Republican presidential nomination in 1908, although the secretary himself never has announced his intention to be a candidate.

President Roosevelt and Secretary Shaw had a conversation last February in the course of which the secretary consented to remain at the head of the treasury department for another year, by which time he would have completed a full four years' term in the office. It was subsequent to this conversation that Secretary Shaw let it be understood that he expected to retire from official life next February.

President Roosevelt's attention was attracted to some publications to the effect that Secretary Shaw expected to leave the cabinet next February and perhaps earlier and during the day he had a conference with the secretary on the matter. At the close of the interview it was said that at the urgent request of the president Secretary Shaw had consented to remain as secretary of the treasury until the close of the approaching term of congress and perhaps for some time afterwards. It is possible that if congress should adjourn prior to July 11, 1906, Secretary Shaw would remain in the cabinet until the end of the present fiscal year at least and he may consent to remain even longer. He will remain until the close of the session of congress in any event, even if that should be beyond the end of the present fiscal year.

Secretary Shaw's decision to remain as secretary of the treasury detracts materially from the importance of some statements published recently to the effect that the president and his secretary of the treasury differed materially on financial matters.

MUSIC AND DRAMA.

THE PROGRESSIVE ENTERTAINERS.

Something out of the ordinary is offered to the people of Brainerd at the opera house on Thursday, Nov. 23.

The Progressive Entertainers, whose aim is "to instruct and amuse," will present on the above date an illustrated lecture on "Pre-historic Ages of the Earth." This lecture is not only a presentation of geological facts, but a story of creation and man's struggle for existence and civilization more full of pathos and sympathy than a powerful drama. The illustrations are hand-colored stereopticon views made under the supervision of eminent scientists; and Mr. F. W. Hawkins, the lecturer knows how to present the subject so that any one may plainly see the fallacy of the purely materialistic views which some people have deduced from these facts.

Madam Eva Moys, a mezzo-soprano of rich quality, and Mr. Bayley Maxton, a well-trained lyric tenor will render illustrated songs and other musical numbers. As a diversion some fine moving picture stories will be given, of the kind

that will prove of interest to both young and old. Special mention deserves "Robinson Crusoe" 900 feet in length. The Progressive Entertainers, for several seasons have given lectures and entertainments under the auspices of the public schools in St. Paul and Minneapolis which fact should assure the public of the quality of their attraction. Prices 25, 50 and 75c.

"THE TENDERFOOT"

It would be hard indeed to find more swinging and characteristic music than will be heard in "The Tenderfoot," that great western operatic comedy that will be the attraction at the Brainerd opera house next Friday, Nov. 24. The stars of the opera are Oscar L. Figman and Ruth White, two players who are well known all over the country for their splendid work as the stars of "The Tenderfoot" when the big revival of the piece was made two seasons ago. Figman has taken front rank among the comedians of the day by his portrayal of the character of Professor Pettibone in "The Tenderfoot." His delightful comedy and dancing have been a surprise even to his warmest admirers, and it is said by the Chicago critics, where

"The Tenderfoot" has just finished a run, that he is the best Pettibone that the piece has yet had. Miss White has a fine soprano voice, and acts the breezy western girl, Marion, to perfection. Other members of the cast are Jethro Warner, Fred Bailey, J. F. Rooney, H. S. Burns, M. H. Baldwin, Geo. Romain, A. W. Hutchins, Louise Brackett, Frankie Warner, Etta Lockhart, Pfenia Lockhart, Mabel Lorena and Dolly Castle. The chorus is an especially large one, the company numbering nearly 70 people. The sale of seats for this attraction will open Thursday morning. Prices \$1.50, \$1, 75, 50 and 25c.

EDWARD CRUST
DID NOT ACCEPT
Position of Alderman From Third Ward to Which He was Elected at Last Meeting

T. TOWHEY WAS ELECTED
Meeting of the City Council Held Last Night in Chambers Was Brief One

The meeting of the city council last night was "short and sweet," although there were some matters of importance which were disposed of in their regular order. In the absence of President Johnson Vice President Opsahl presided over the deliberations of the meeting.

The following financial report of City Clerk Low for the month of October was received and on motion was approved and ordered placed on file. The report was as follows:

RECEIPTS.

Electric lights.....	\$1,859 12
Municipal court fines.....	107 40
Total.....	\$1,966 52

DISBURSEMENTS.

City expense.....	986 68
Printing.....	30 01
Streets, sidewalks and bridges.....	1,610 87
Fire protection.....	156 25
Electric light fund.....	1,588 07
Total.....	\$4,378 88

The outstanding indebtedness of the city Oct. 1, 1905, was \$29,029.63. The outstanding indebtedness on Nov. 1, was \$31,918.48, making an increase of the outstanding indebtedness in one month of \$2,888.85.

The liquor license applications of Iver Holden and Adam Armstrong were received last night. The licenses were granted and the bonds approved.

A communication was read from Edward Crust in answer to the one sent him informing him of his election as alderman of the Third ward to succeed A. Miller, resigned. Mr. Crust thanked the council for its consideration and took it to mean that it was a recognition of the service he had rendered the city in the past, but he was impelled to decline the position on account of other duties which would take most of his time.

Alderman Halladay then nominated T. Towhey for the position and on motion the council proceeded to ballot, with the result that Mr. Towhey received all the votes for the position. Mr. Towhey was recommended in the first instance by A. Miller when he left. He was Mr. Miller's opponent at the last election for this position and was defeated by only one vote.

A communication was read from Supt. M. M. Fowler, of the Minnesota division, in which he requested that all electric light wires crossing the right of way of the Northern Pacific company be listed and that permits be secured from the company for running these wires across the right of way. The communication was referred to the electric light committee.

Another bid was received last night for the old scrap iron at the power plant and about the electric light office from B. Soloski & Co. Their bid was \$250, but as this was \$25 less than a former bid the matter was referred to the electric light committee with power to act.

Alderman Armstrong, of the fire committee, reported on the needs at the central hose house and also the general needs of the department. Some bedding would have to be purchased as a result of the fire, and new coats also for the various companies. The matter was referred to the purchasing committee with power to act.

BOY ACCIDENTALLY SHOT
In the Arm and Thigh and is Brought to Brainerd for Treatment—Accident Occurred Sunday

Daniel Gordon, the young son of D. J. Gordon, of Daggett Brook, was brought to the city Sunday night suffering from wounds received from a gun shot which was inflicted while the lad was out hunting Sunday afternoon. At first it was not thought that the injuries were at all severe but upon examination by Dr. Groves it was discovered that the tendons of the wrist of the right arm were torn and the shot entered his thigh and left a bad wound. The boy was standing on a log and is supposed to have been holding the gun in his right hand when it slipped and the hammer hitting against the side of the log discharged the gun. He is being well cared for at St. Joseph's hospital and it is thought that he will recover rapidly from the effects of the accident.

A Fine Lecture.

"Talent," a magazine devoted to Lyceum platform and Chautauqua, published in Philadelphia, recently contained a write-up of Oliver W. Stewart, who is to speak in the M. E. church in this city on Thursday of this week. In part, it said: "Prohibition has too many advocates of the rabid sort who neither convince nor persuade their hearers. Oliver W. Stewart is different. There is no doubt of his position on the temperance question, yet in maintaining it he does not deal in extravagance of speech, shallow reasoning and absurd ranting. The audience which I heard him address was not particularly interested in the cause he had to present. The cause because they had season tickets and wanted to get their money's worth. Mr. Stewart had been speaking only a few minutes before the audience was changed over from frank indifference to a genuine interest in the theme."

Yes, he died from appendicitis. If he had taken Dr. Adler's Treatment, the great appendicitis preventative, he would be alive and well today. How about you? Better get a bottle and be on the safe side. Johnson's Pharmacy.

GOING AFTER
COUNTY AFFAIRS
Protest Made to Claims Allowed by the Board of County Commissioners

APPEAL MADE BY CO. ATTORNEY
In Three Instances and He is Backed by Some Strong Petitions from Taxpayers

There was quite a stir this morning in county affairs when County Attorney A. D. Polk appeared at the office of County Auditor Mahlum and filed written notices of appeals from the decisions of the county commissioners in allowing three claims at the last meeting of the board on Nov. 7.

The claims referred to are as follows: Olaf Skauge Drug company for \$36.70 drugs claimed to have been furnished the county, Fred Hartman for \$200 on a claim for road work done on county road between Crow Wing township and Long lake, and A. Mahlum for \$400 for making up lists of lands forfeited to the state and bid in by the state for delinquent taxes.

It seems that taxpayers have been getting busy. In the case of the Hartman claim several farmers signed the petition and in the case of the Mahlum claim the Commercial Club had much to do with the petition to the county attorney, as all the taxpayers were members of this body.

County Attorney A. D. Polk takes the appeal from the decision of the board of county commissioners on behalf of the county and is working under Chapter 337, of the laws of 1903 which provides that: "When the claim of any person against a county is allowed in whole or in part by the board of county commissioners, no order shall be issued in payment of such claim or any part thereof, until after the expiration of 15 days from the date of the decision; and the county attorney may in any case, and if the amount allowed exceeds \$25 he shall upon the request of seven taxpayers of the county, on behalf of said county, appeal from the decision of such board to the district court in the such county by causing a written notice of such appeal to be filed in the office of the county auditor within 15 days after the date of the decision appealed from."

In the case of the Skauge Drug company it is claimed that the goods were not furnished to the county.

In the case of Fred Hartman the appeal is taken on the demand of the following petitioners: Frank J. Wolvert, Anton Webber, Peter W. Wohlfater, Otto J. Tenrhop, William Gildart, Geo. Enchenbacher and Robert Potter, who claim that the road work was not fairly let and that \$200 was an excessive and unreasonable amount to pay for the work.

The appeal is taken from the allowance of the A. Mahlum claim at the request of C. D. O'Brien, W. D. McKay, L. J. Cale, J. M. Elder, Henry I. Cohen, M. K. Swartz, Henri Ribble, J. L. Camp, J. F. McGinnis, C. D. Johnson, C. M. Patek, C. H. Paine, C. N. Parker, Judd Wright, F. A. Farrar, R. R. Wise and G. W. Holland. So far as can be learned the claim is that there is an attempt to pay the auditor for work which it was his duty as county auditor to do and for which he is paid in his salary.

County Attorney Polk has been vigilant in his efforts in this direction and stated today that the appeals, the first ever taken in this county, would be watched with interest by the taxpayers of the county.

Son Lost Mother.
"Consumption runs in our family, and through it I lost my mother," writes E. B. Reid, of Harmony, Me. "For the past five years, however, on the slightest sign of a cough or cold, I have taken Dr. King's New Discovery for consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Cuyuna Range Discussed
The subject of debate at the Y. M. C. A. debating club meeting last night was, "Resolved, the Cuyuna Range will not be a great benefit to Brainerd." Those on the affirmative were Prof. Santee, A. H. Swanson and Will McGinnis. The negative was represented by W. W. Barron, J. W. Flickwir and Alden Fuller. Every member did good work, but the professor and his two men won out by three points. There was special music by Mr. Simpson and speeches were made by Irving Bedeaux, Prof. Santee and J. W. Flickwir. There was a good crowd present considering it was pay night. The club is getting in good shape for the winter's work and it is hoped that all members will help the good work along. The judges last night were E. Simpson and H. Boyle.

CATARRH CURE
"Hyomei Costs You Nothing If It Fails Says H. P. Dunn & Co.

Among the many medicines upon the market that claim to cure catarrh none but Hyomei has enough faith in its own merit to offer to refund the money if it does not cure.

This scientific remedy for catarrh kills the microbes and germs of the disease and from its introduction has been sold under a positive guarantee to return the money to all dissatisfied customers.

Hyomei is the only method of treatment that sends by direct inhalation to the most remote parts of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and makes permanent and complete cures of catarrh.

The complete outfit costs \$1.00 and comprises an inhaler, a bottle of Hyomei and a dropper. The inhaler will last a lifetime, and additional bottles of Hyomei can be obtained for 50 cents.

Breathe Hyomei for a few minutes four times a day, and your catarrh will grow better from the first day's use, and will be completely cured within a short time.

Do not try to cure catarrh with ordinary stomach medicines. Breathe the healing Hyomei which goes to every part of the air passages and respiratory organs, killing the catarrhal germs and preventing their growth.

It is the only treatment for catarrh where you can get your money back from a local dealer H. P. Dunn & Co. in case it does not help.

TAFT TALKS ON PHILIPPINES.

Says Islands Must Be Ours for More Than a Generation.

Kansas City, Mo., Nov. 21.—Secretary of War William H. Taft, who was the guest of honor here at night at the annual banquet of the Commercial club, said in responding to the toast "The Philippines:"

"The Philippine islands are ours and must be ours for more than a generation. It is quite probable that those called upon to act as legislators will not live to see the day when separation consistent with the welfare of the Philippines can be made."

The occasion of the banquet was the anniversary of the signing of the John Jay commercial treaty. Plates were laid for 600 and the capacity of the ballroom at the Midland hotel was taxed to its utmost. Senator Warner was toastmaster.

Secretary Taft was given an ovation when he arose to speak.

Other toasts were responded to as follows: "Nothing the Matter With Kansas," by Governor Hoch of Kansas; "Grand Old Missouri," by D. R. Francis, former governor of Missouri; "Peace," by John S. Wise of New York.

ONE DEAD AND THREE HURT.

Result of a Destructive Fire at Shreveport, La.

Shreveport, La., Nov. 21.—Fire during the morning destroyed the city hall, city market, two store buildings, and slightly damaged the city prison, caused the death of one person and the injury of three firemen. The property loss is estimated at \$75,000. Wilder Wood, a half-witted cripple who was permitted to have a room in the market, perished in the flames. None of the firemen who sustained injuries is fatally hurt.

All records in the city court, police station and engineer's office were destroyed.

Serious Auto Accident.

Atlantic City, N. J., Nov. 21.—The racing automobile worth \$17,000 and owned by James Earhart, the Newport brewer, was wrecked here during the day and one of its occupants seriously injured. The occupants were William Williams, C. H. Greenwald, Isaac Bennett and a chauffeur. The chauffeur in trying to avoid a collision with a wagon struck a trolley pole, wrecking the machine and badly injuring Greenwald.

FEDERAL SUPERVISION.

Senator Dryden Will Introduce Insurance Bill.

Washington, Nov. 17.—Senator Dryden of New Jersey, who is president of one of the largest life insurance companies in the country, had a talk with the president during the day on the subject of insurance, which the president will discuss freely in his forthcoming message to congress. Senator Dryden will introduce at the approaching session a bill providing for federal supervision of life insurance.

Deafness Cannot be Cured

by local application, as they cannot reach the dis-ease portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
